QUESTION 1

Which of the following represents the function of the Appearance section in the Output tab of Adobe Bridge?

- A. It chooses colors for different elements of the gallery.
- B. It specifies the information that appears on every page of the gallery.
- C. It includes a caption, based on image metadata, on gallery images.
- D. It specifies the size of images and thumbnails, the quality of the JPEG images, transition effects, layouts, and whether to include filenames on HTML gallery images.

Correct Answer: D

The Appearance option in the Output tab of Adobe Bridge specifies the size of images and thumbnails, the quality of the JPEG images, transition effects, layouts,

and whether to include filenames on HTML gallery images.

Answer option B is incorrect. The Site Info option specifies information that appears on every page of the gallery, including a title, a description, and contact name

and e-mail address. Answer option A is incorrect. The Color Palette option chooses colors for different elements of the gallery.

Answer option C is incorrect. The Image Info option includes a caption, based on image metadata, on gallery images. This is for Airtight galleries only. Reference: http://helpx.adobe.com/content/help/en/bridge/using/create-web-galleries-pdfs-adobe.html#create_a_web_photo_gallery

QUESTION 2

Describe how you can use Bridge to copy files from one folder to another in a separate location on your computer. Each correct answer represents a part of the solution. Choose three.

- A. Navigate to the files using the Folders tab or the path bar, and select them.
- B. Use Bridge to navigate to where you want to copy the files and press Ctrl+V.
- C. Choose File, File Info.
- D. Press Ctrl+C to copy.

Correct Answer: ABD

QUESTION 3

Which of the following tools paints hard-edged strokes?

- A. Brush tool
- B. Pencil tool
- C. Mixer Brush tool
- D. Color Replacement tool

Correct Answer: B

QUESTION 4

Which of the following tools erases areas to transparency by dragging?

- A. Content-Aware Move tool
- B. Magic Eraser tool
- C. Background Eraser tool
- D. Eraser tool

Correct Answer: C

The Background Eraser tool erases pixels on a layer to transparency as you drag.

Answer option B is incorrect. The Magic Eraser tool erases solid-colored areas to transparency with a single click.

Answer option A is incorrect. The Content-Aware Move tool is used to select and move a part of a picture. The image is recomposed and the hole left behind is filled using matching elements from the picture.

Answer option D is incorrect. The Eraser tool erases pixels and restores parts of an image to a previously saved state.

QUESTION 5

Which of the following Process Versions of Camera Raw is used in Camera Raw 7?

- A. Process Version 2003
- B. Process Version 2012
- C. Process Version 2010
- D. Process Version 2008

Correct Answer: B

Process Version 2012 Images edited for the first time in Camera Raw 7 use process version 2012. PV2012 offers new tone controls and new tone-mapping

algorithms for high-contrast images.

Answer option C is incorrect. Process Version 2010 images edited in Camera Raw 6 use PV2010 by default. PV2010 offers improved sharpening and noise-

reduction from the previous process version, PV2003.

Answer option D is incorrect. This Process Version of Camera Raw is not used in Camera Raw 7.

Answer option A is incorrect. Process Version 2003 is the original processing engine, used by Camera Raw versions 5.x and earlier.

QUESTION 6

Which of the following actions should a user take in order to dock a panel group?

- A. Drag it by its tab into the dock, at the top, bottom, or in between other panels.
- B. Drag it out of the dock by its tab or title bar.
- C. Drag it into another dock.
- D. Drag it by its title bar into the dock.

Correct Answer: D

In order to dock and undock panels, do the following:

1.
To dock a panel, drag it by its tab into the dock, at the top, bottom, or in between other panels.
2.
To dock a panel group, drag it by its title bar (the solid empty bar above the tabs) into the dock.
3.
To remove a panel or panel group, drag it out of the dock by its tab or title bar. You can drag it into another dock or make it free-floating.

QUESTION 7

Which of the following options in the Refine Edge dialog box is used to determine the size of the selection border in which edge refinement occurs?

- A. Smart Radius
- B. Radius
- C. View Mode
- D. Refine Radius tools

Correct Answer: B

Radius is used to determine the size of the selection border in which edge refinement occurs.

Answer option C is incorrect. View Mode is used to change the mode that how the selection is displayed.

Answer option D is incorrect. Refine Radius is used to precisely adjust the border area in which the edge refinement occurs.

Answer option A is incorrect. Smart Radius is used to automatically adjust the radius for soft and hard edges found in the border region.

QUESTION 8

To preview images onscreen as they\\'d appear when printed on your printer, you should choose commands from the _____ submenu.

- A. Image, Adjustments
- B. Image, Mode
- C. View, Proof Setup
- D. View, Screen Mode

Correct Answer: C

QUESTION 9

Which of the following options in the Save For Web dialog box specifies the interpolation method?

- A. Constrain Proportions
- B. Copyright
- C. All Except Camera Info
- D. Quality

Correct Answer: D

The Quality option in the Save For Web dialog box specifies the interpolation method.

Answer option A is incorrect. The Constrain Proportions option in the Save For Web dialog box maintains the current proportions of pixel width to pixel height.

Answer option B is incorrect. The Copyright option in the Save For Web dialog box saves copyright notice, rights usage terms, copyright status, and copyright info URL.

Answer option C is incorrect. The All Except Camera Info option in the Save For Web dialog box saves all metadata, except EXIF data about camera settings such as shutter speed, date and time, focal length, exposure compensation, metering pattern, and flash use. Reference:

QUESTION 10

Which of the following factors contribute to an image's file size? Each correct answer represents a complete solution. Choose three.

- A. Pixel count
- B. Number of colors
- C. Image resolution
- D. Compression

Correct Answer: ABD

Answer options A, B, and D are correct.

QUESTION 11

What tool can you use to modify a Curves adjustment layer by pointing to the area in the image you want to modify and drag?

- A. The Eyedropper tool.
- B. The Targeted Adjustment tool.

- C. The Content-Aware Move tool.
- D. The Free Transform tool.

Correct Answer: B

QUESTION 12

Which of the following panels is available in Adobe Photoshop, Adobe InDesign, and Adobe InCopy to browse and manage assets?

- A. Camera raw
- B. Mini Bridge
- C. File browsing
- D. Color management

Correct Answer: B

Mini Bridge is a panel available in Adobe Photoshop, Adobe InDesign, and Adobe InCopy which is used to browse and manage assets. Mini Bridge communicates with Adobe Bridge to create thumbnails and keep files up-to-date. Mini Bridge lets you work with files more easily within the host application.

QUESTION 13

How can you choose a different brush diameter and hardness when you're using the Brush tool to paint?

- A. On the options bar, select an option from the Mode list.
- B. On the options bar, open the Brush Preset picker and select a brush type.
- C. In the Tools panel, double-click the Brush tool; then select a brush type and click OK.
- D. In the Tools panel, select a different brush.

Correct Answer: B

QUESTION 14

How can you convert several selected layers into a Smart Object?

- A. From the Layers panel menu, choose Merge Layers.
- B. From the Layers panel menu, choose New Group.
- C. From the Layers panel menu, choose Convert to Smart Object.
- D. From the Layers panel menu, choose New Group from Layers.

Correct Answer: C

QUESTION 15

_____ is the process of softening a selection by gradually reducing opacity to a specified number of pixels extending equally inside and outside a selection edge.

- A.
- B.
- C.
- D.

Correct Answer:

Answer: Feathering Feathering is the process of softening a selection by gradually reducing opacity to a specified number of pixels extending equally inside and outside a selection edge. Feathering blends a selection with its background by applying transparency to the selection's outer pixels. As the feathering extends outward, it becomes increasingly transparent. The feathering isn't apparent until you move, cut, copy, or fill the selection.
