QUESTION 1

When using the Manage Search portlet to configure Portal Search, which one of the following options allows the administrator to define if categorization and/or summarization of documents should be done?

- A. Collection
- B. Content source
- C. Search scope
- D. Content service

Correct Answer: A

QUESTION 2

What does the following command do? `ConfigEngine.bat enable-profiles - DWasPassword=password`

- A. This command allows additional profiles to be created from the Installation Manager tool.
- B. This command creates secondary IBM WebSphere Portal profiles.
- C. This command forms the basis for the portal profile template to create multiple WebSphere Portal profile templates, that is, to create the configuration archivefile (CAR).
- D. This command enables WebSphere Portal to be associated to an IBM WebSphere Application Server profile.

Correct Answer: C

QUESTION 3

Which option best describes the workflows that can be achieved using the IBM WebSphere Portal Configuration Wizard?

- A. Enabling security.
- B. Enabling security, transferring the portal database, and connecting to an existing database.
- C. Enabling security, and transferring the portal database.
- D. Enabling security, transferring the portal database, connecting to an existing database, and enabling IBM Lotus Domino integration (collaborative features, directory integration, and so on).

Correct Answer: B

QUESTION 4

What file contains the configuration information for multiple LDAP servers?

- A. wim-ldap-fed.xml
- B. wimconfig.xml
- C. wimconfig.xsd
- D. wim-policy.xml

Correct Answer: B

QUESTION 5

Which one of the following statements is not true regarding Multiple Profiles?

- A. Multiple profiles share the program files (binaries).
- B. Each IBM WebSphere Portal profile maintains its own independent configuration.
- C. ConfigEngine commands must be performed at the master configuration in order to propagate changes across all virtual profiles.
- D. All virtual profiles must be taken down when performing maintenance on the WebSphere Portal installation.

Correct Answer: C

QUESTION 6

Which of the following options is true of VMware technology with IBM WebSphere Portal 8.0?

- A. VMware can be used to mass-replicate identical operating systems installed and configured with WebSphere Portal.
- B. VMware can be replicated with WebSphere Portal with multiple profiles.
- C. WebSphere Portal cloning is not supported with VMware.
- D. VMware cannot be used to mass-replicate identical images because WebSphere Portal is tied to the host name.

Correct Answer: A

QUESTION 7

When setting up security for a stand-alone IBM WebSphere Portal profile that will become part of a cluster, which of the following statements is correct?

- A. Security should be set up on the stand-alone node prior to joining the deployment manager cell.
- B. Security should be set up on the deployment manager cell after the node is added.
- C. It makes no difference whether security is set up before or after the WebSphere Portal node joins the deployment manager cell.

D. The IBM WebSphere Integrated Solutions console, not WebSphere Portal security tasks, should be used to configure security.

Correct Answer: B

QUESTION 8

Which of the following direct migration paths to IBM WebSphere Portal 8.0 are supported?

- A. WebSphere Portal 5.1.0.x and 6.1.0.x.
- B. WebSphere Portal 6.0.0.x and 7.0.0.x.
- C. WebSphere Portal 6.1.5.x and 7.0.0.x.
- D. All of the above.

Correct Answer: C

QUESTION 9

When using the branding capabilities of IBM WebSphere Portal, what best defines Themes optimization?

- A. Themes optimization requires a monolithic design to achieve the flexibility that allows administrators to achieve better performance.
- B. Theme optimization uses modules and profiles to achieve the flexibility that allows administrators to achieve better performance.
- C. Theme optimization uses modules and monolithic design to achieve the flexibility that allows administrators to achieve better performance.
- D. Theme optimization uses CSS to achieve the flexibility that allows administrators to achieve better performance.

Correct Answer: B

QUESTION 10

After migration, Acme wants to enable support for Managed Pages. To do so, which of the following command needs to be run?

- A. Run the ConfigEngine.sh enable-managed-pages.
- B. Run the ConfigEngine.sh activate-managed-pages.
- C. Run the WPSconfig.sh activate-managed-pages.
- D. Run the WPSconfig.sh enable-managed-pages.

Correct Answer: A

QUESTION 11

IBM WebSphere Portal supports multiple ways for portlets to exchange or share information. Select the option that does not describe this functionality.

- A. Public render parameters allow JSR 286 portlets to share navigational state information.
- B. Portlet Wires are used to direct the information flow between portlets that communicate using JSR 286 Portlet events or the WebSphere Portal Cooperative portlets API.
- C. Cooperative portlets represent an IBM-specific API for publish/subscribe communication between JSR 168 and JSR 286 portlets.
- D. Portlet events provide a powerful and flexible publish/subscribe mechanism for communication between JSR 286 portlets.

Correct Answer: C

QUESTION 12

On the WSRP producer side, the enforcement of the access control decision for provided portlets can be enabled or suppressed by setting the configuration property in which of the following?

- A. portal.security.wsrp
- B. puma.security.config
- C. wsrp.security.enabled
- D. wmmur.security.config

Correct Answer: C

QUESTION 13

Don is designing a highly-available, secure, high-traffic, public website for his company. If he wants to use IBM WebSphere Portal, what components should he consider?

- A. Dynamic cache and a stand-alone, WebSphere Portal server with disaster recovery.
- B. An authentication and authorization solution, a load-balancing solution, a WebSphere Portal server cluster with HTTP servers handling static content, clustered LDAP servers and database servers.
- C. A WebSphere Portal server cluster, step-up authentication, and network- attached, storage devices.
- D. An authentication and authorization solution, a business process engine, and a WebSphere Portal server cluster.

Correct Answer: B

QUESTION 14

Bob needs to integrate IBM WebSphere Portal to handle tasks from several different backend systems as a service. Bob can createtasks and specialized workflows using which of the following?

- A. Unified Task Portlet
- B. IBM Rational Application Developer Edition and Standard Portlet API
- C. Unified Task Developer Edition and Collaborative Services API
- D. Page Builder and Portlet Wires

Correct Answer: A

QUESTION 15

The business units of Mary\\'s company have needs for their own portals. However, the demand on server resources is not great enough to require parallel installations. In response, Mary\\'s company selected virtual portals. Whichof the following options are available across each of the virtual portals by default?

- A. Portal search
- B. Document management
- C. Portal property file definitions
- D. Anonymous pages per virtual portal

Correct Answer: D
