### QUESTION 1

George has been asked to create a new Lotus Notes XPages application that is used in the Lotus Notes client and on the web. George knows Lotus Notes development, but not XPages yet. How can he use LotusScript in the new application?

- A. He can use LotusScript agents in his application and he does not need to learn anything else.
- B. He can call LotusScript agents from his XPages, but it would be better if he converted them into JavaScript in his XPages.
- C. He cannot use LotusScript at all any more and needs to rewrite all of his existing agents and event code to use JavaScript and Java.
- D. He can just copy and paste the LotusScript into the XPage event model and it will work.

Correct Answer: B

---

### QUESTION 2

Marta needs to store a value and reuse it throughout the life of each Web user's interaction with her XPages application. How should she set the value named `Title` to `Senior Project Manager`?

- A. `sessionScope.Title= "Senior Project Manager"`
- B. `applicationScope.Title= "Senior Project Manager"`
- C. `sessionScope.setValue("Title", "Senior Project Manager")`
- D. `applicationScope.setValue("Title", "Senior Project Manager")`

Correct Answer: A

---
