QUESTION 1

A company has just deployed IBM Tivoli Endpoint Manager V8.1(TEM) to manage 5000 Windows desktops for patching, operating system deployment, remote control, and power management. A patch administrator is responsible for patching all systems throughout the environment, has a TEM Console on the system, and is able to log in using the credentials supplied by the TEM administrator. An intern is hired to patch a TEM group called Test Machines. The intern has no other rights in the TEM Console. What permissions must be granted to the intern?

- A. Assign operator rights to the TEM Console and management rights to the Test Machines group.
- B. Assign operator rights to the TEM Console and reader permissions to the Patches for Windows site.
- C. Assign master operator rights to the TEM Console and management rights to the Test Machines group.
- D. Assign operator rights to the TEM Console, reader permissions to the Patches for Windows site, and management rights to the Test Machines group.

Correct Answer: D

QUESTION 2

Installation of the Asset Discovery service requires which steps in IBM Tivoli Endpoint Manager V8.1 (TEM)?

- A. Run the Task Install NMAP Asset Discovery Import Service on the TEM Server. Run the Designate NMAP Scan Point Task to designate the scan points.
- B. Run the Task Install NMAP Asset Discovery Import Service on the TEM Relays. Run the Designate NMAP Scan Point Task to designate the scan points.
- C. Run the Task Install NMAP Asset Discovery Import Service on at least one TEM Relay. Run the Designate NMAP Scan Point Task to designate the scan points.
- D. Run the Task Install NMAP Asset Discovery Import Service on the desired TEM Agents. Run the Designate NMAP Scan Point Task to designate the scan points.

Correct Answer: A

QUESTION 3

How is the IBM Tivoli Endpoint Manager (TEM) Relay installation initiated?

- A. Install the TEM Relay from the TEM Client Deploy tool.
- B. Execute the IBM Tivoli Endpoint Manager Relay 8.1.x task from the TEM Console.
- C. In the TEM Installer, select Install Tivoli Endpoint Manager Components > Install Relays > Install Remotely.
- D. Log in to the desired computer with administrator privileges and copy the BES Installers\Relay folder from the TEM Server to the local hard drive.

Correct Answer: B

QUESTION 4

Which three components can be installed with the IBM Tivoli Endpoint Manager (TEM) Installation Guide (Component Installer)? (Choose three.)

- A. TEM Relay
- B. TEM Server
- C. TEM Console
- D. TEM Agents for UNIX
- E. TEM Agents for Windows
- F. TEM for Software Usage Analysis

Correct Answer: BCE

QUESTION 5

By default, where is the IBM Tivoli Endpoint Manager Console installed on a 32-bit operating system?

- A. C:\Tivoli\Console\
- B. C:\Program Files\IBM\Tivoli\TEM\Console\
- C. C:\Program Files\TEM Enterprise\TEM Console\
- D. C:\Program Files\BigFix Enterprise\BES Console\

Correct Answer: D

QUESTION 6

Which statement is correct when assigning roles to Active Directory users in IBM Tivoli Endpoint Manager Web Reports?

- A. Users can only be assigned roles.
- B. Users can inherit and be assigned roles.
- C. Users can only inherit roles from the security group.
- D. Users are not accessible from the Active Directory permissions.

Correct Answer: B

QUESTION 7

Where can the results of the analysis be viewed?

- A. in the log file of the client
- B. in the action generated by the activation of the analysis
- C. in the computer property of the computer the operator is interested in
- D. in the e-mail sent to the master operator who activate it according to the period defined

Correct Answer: C

QUESTION 8

When configuring Automatic Relay Selection, why should all IBM Tivoli Endpoint Manager (TEM) Relays and TEM Server be set for Manual Relay Selection?

- A. There is no implication having the TEM Relays and the TEM Server set for Automatic Relay Selection.
- B. TEM Relays using Automatic Relay Selection will create additional network load due to the ICMP pings used by the Auto Selection algorithm.
- C. TEM Relays set to Automatic Relay Selection may incorrectly select another TEM Relay leading to the potential that these TEM Relays are unable to gather new content.
- D. TEM Relays using Automatic Relay Selection will use additional system resources that will potentially impact the operations of the system where the TEM Relay Service has been installed.

Correct Answer: C

QUESTION 9

What statement is correct when assigning roles to Active Directory security groups in IBM Tivoli Endpoint Manager Web Reports?

- A. Security groups can be assigned any role.
- B. Security groups can only be assigned the role Normal.
- C. Security groups can only be assigned the role Read-only.
- D. Security groups can only be assigned the role Administrator.

Correct Answer: A

QUESTION 10

How is the command polling interval enabled?

- A. use the BES Fixlet called Enable Polling

- B. use the BES Relay Setting task called Enable Polling
- C. use the BES Client Setting task called Enable Command Polling
- D. use the BES Server Setting task called Enable Command Polling

Correct Answer: C

QUESTION 11

How is command polling enabled in IBM Tivoli Endpoint Manager?

- A. use the BES Fixlet called Enable Polling
- B. use the BES Server Setting task called Enable Polling
- C. use the BES Client Setting task called Enable Command Polling
- D. use the BES Relay Setting task called Enable Command Polling

Correct Answer: C

QUESTION 12

An administrator is troubleshooting the agent's log file. The agent is connecting to the server and downloading content, however the IBM Tivoli Endpoint Manager (TEM) Console does not show the agent computer listed but other computers are visible. What should be checked next?

- A. the masthead file for the agent
- B. TEM Console ODBC connection
- C. if UDP pings can reach the agent
- D. TEM Console operator management rights

Correct Answer: D

QUESTION 13

How is the cache cleared on a single IBM Tivoli Endpoint Manager (TEM) Console?

- A. Clear the Java cache in the Java Control Panel.
- B. Clear the cache in the Internet Properties Window in Control Panel.
- C. Open the TEM Console and go to File > Preferences and click the Clear Cache button.
- D. Run the Clear TEM Console Cache Fixlet and target the desired TEM Console computer.

Correct Answer: C

QUESTION 14

Which two vendors are supported by IBM Tivoli Endpoint Manager Client Manager for Endpoint Protection? (Choose two.)

- A. HP
- B. Cisco
- C. McAfee
- D. AVG Technologies
- E. Computer Associates

Correct Answer: CE

QUESTION 15

What are the minimum permissions required to install an IBM Tivoli Endpoint Manager (TEM) Relay from the TEM Console?

- A. TEM Operator
- B. Local Administrator
- C. Domain Administrator
- D. TEM Master Operator

Correct Answer: A
