Correct Answer: A

QUESTION 11

A Business Process Management (BPM) organization based in India, has many domestic clients. The organization observes that one of its domestic clients does not appreciate the value of customers' personal information and have a lot of system loop holes that can be exploited to breach privacy of its customers. The contract signed with the said client makes the BPM organization 100% liable for privacy breaches. The BPM organization has paid close to \$10,000 in fines as penalty to the said client in the past. The privacy office has highlighted the risk to the senior management of the BPM organization. What is the best possible approach that the BPM organization can take to resolve this issue?

- A. Escalate the issue to client's management, and cancel the contract with the client if they do not stop penalizing the company for the privacy breaches
- B. Take strict actions against individuals committing the breach of privacy, including taking them to court in India via the available channels
- C. Conduct a proactive risk assessment of client's business processes, and associated IT systems ? present the risk management report to the client, and request for change of contract terms to amend the liability clause.
- D. None of the above

Correct Answer: C
