QUESTION 1

What is the maximum number of Fibre Channel initiator ports, per Linux host, supported by VNX for Block?

- A. 4
- B. 8
- C. 16
- D. 32

Correct Answer: C

QUESTION 2

You are setting up quotas on a file system that will serve up home directories to thousands of users.

How can this task be accomplished efficiently?

- A. Configure default hard and soft quota values.
- B. In Unisphere, select multiple users from the quota list.
- C. Clone the quota configuration from one user to another.
- D. Use a trigger to set quotas at the initial login of each user.

Correct Answer: A

QUESTION 3

A customer has an application that uses a small amount of capacity but has very high performance requirements. The customer initially configured the LUNs using the Highest Available Tier option and now wants to configure the FAST VP policy to ensure LUNs allocated to this application always stay on higher performance storage.

What do you advise?

- A. The policy should be set to Highest Available Tier.
- B. Initially set the policy to Lowest Available Tier, then Auto-Tier.
- C. The policy should always be set to Auto-Tier.
- D. Initially set the policy to Highest Available Tier, then Auto-Tier.

Correct Answer: A

QUESTION 4

What can be found from the Virtualization Host page in the VNX Unisphere Manager GUI?

- A. Block connected ESXi Servers
- B. Wizard for discovering block connect ESXi Servers
- C. File connected ESXi Servers
- D. NFS datastores

Correct Answer: A

QUESTION 5

What default option does a newly created file system have when it is NFS exported?

- A. R/W
- B. R/W/X
- C. R/O
- D. R/X

Correct Answer: A

QUESTION 6

Which drive type is supported in the 2U, 25-drive DAE5S?

- A. SAS
- B. NL-SAS
- C. Flash
- D. Fibre Channel

Correct Answer: A

QUESTION 7

What is the minimum number of administrative accounts for a Unisphere storage domain?

- A. 1
- B. 2
- C. 3
- D. 4

Correct Answer: A

QUESTION 8

A storage administrator creates a clone of a source LUN. Which command should be used to make the clone available to the secondary server?

- A. fracture
- B. synchronize
- C. activate
- D. start session

Correct Answer: A

QUESTION 9

What is the minimum acceptable number of drives in a RAID 5 pool on a VNX array?

- A. 3
- B. 4
- C. 5
- D. 9

Correct Answer: A

QUESTION 10

What is required when configuring a Data Mover interface?

- A. Broadcast address
- B. NTP address
- C. NIS address
- D. KDC address

Correct Answer: A

QUESTION 11

For LACP Load Balancing Considerations, what setting provides the best load balancing per host?

- A. Source/Destination TCP/UDP Ports.
- B. Source/Destination MAC Address
- C. Source/Destination IP Address.
- D. Session ID number.

Correct Answer: A

QUESTION 12

Which VNX feature is used to reclaim unused storage space?

- A. LUN shrink
- B. LUN migration
- C. Thin provisioning
- D. RAID group defragmenting

Correct Answer: A

QUESTION 13

A customer wants to decrease the size of VNX pool LUNs presented to a Failover Cluster using the LUN shrink feature.

What do you advise?

- A. The LUN shrink feature will allow them to reduce LUN sizes for this cluster.
- B. LUN shrink is only supported with stand-alone hosts.
- C. The LUN shrink feature is not supported with Failover Clusters.
- D. The LUN must not be defragmented prior to using the LUN shrink feature.

Correct Answer: A

QUESTION 14

Which VNX Remote Protection Suite method features a read-only copy of source file systems?

- A. VNX Replicator
- B. Mirrorview/A
- C. Mirrorview/S
- D. RecoverPoint/SE

Correct Answer: A

QUESTION 15
