QUESTION 1

An international Terminal Server farm centrally based in New York has users with different languages working on it. The best way to create a language-dynamic Start Menu is to base it on

1.

 Zones.

2.

 Language Packs.

3.

 Keyboard mappings.

4.

 Environment Variables.

A. 1 and 2 only

B. 3 and 4 only

C. 1, 2 and 4 only

D. 2, 3 and 4 only

Correct Answer: C

QUESTION 2

User Workspace Management consists of

A. Context, Composition and Content

B. Context, Content and Security

C. Security, Diagnostics and Setup

D. Composition, Security, Extensions

Correct Answer: B

QUESTION 3

The administrator has been sampling for several months and you run the Workspace Designer using these DTS files. How can you be sure you only use the data from the last month?

A. Simply leave out the DTS files older than 30 days.

B. It is not possible to filter the data in DTS files.

C. Select Only show objects accessed in last 30 days.

D. In the Workspace Designer filter out the old data.

Correct Answer: C

QUESTION 4

You upgraded your existing environment from RES Workspace Manager 2011 to RES Workspace Manager 2012 and enabled the option Cache locally unless otherwise specified for the Workspace container with all your Laptops. These laptops all run Microsoft Windows 7.

Where will the User Settings be saved during the session?

A. %homedrive%\Personal Settings\UserPref.

B. %homedrive%\Pwrmenu\UserPref.

C. %localappdata%\RES\WM\UserPref.

D. %userprofile%\Local settings\Application Data\RES\WM\UserPref.

Correct Answer: C

QUESTION 5

A CAD application needs full CPU power to ensure the shortest rendering times. CPU Optimization is configured for the total environment to limit CPU usages for applications. How can the administrator configure RES Workspace Manager so that it grants this specific application the necessary CPU power, without losing control over other applications?

A. Add a registry action at application level: Exclude From CPU = Yes

B. Exclude the application from CPU Optimization by adding the process name in the global CPU Optimization properties.

C. All applications are effected by CPU Optimization. No exceptions can be made.

D. Exclude the application from CPU Optimization on the application\\'s Settings tab

Correct Answer: D

QUESTION 6

Process Interception is supported for

1.

 RES VDX extended applications

2.

 Citrix XenApp Published applications

3.

 RDP Desktops

4.

 TS RemoteApps

A. 1 and 2 only

B. 2 and 3 only

C. 1, 2 and 4 only

D. 1, 2, 3, and 4

Correct Answer: B

QUESTION 7

The option "Allow users to restore their own settings" is selected for an application, but a user of the application complains that the "Restore" option has not become available. What is the most likely cause?

A. The option "number of sessions to keep" has not been set.

B. The user has no stored settings to restore.

C. The application is running in Sampling mode.

D. The user has selected the option "Do not show this message again".

Correct Answer: B

QUESTION 8

The SQL Server logging shows that new connections are refused on a regular basis because the SQL Server has reached the maximum amount of concurrent connections. As a result configuration changes are not replicated to all of the Agents in time because they cannot connect to the database. What needs to be done to prevent this from happening and make your infrastructure more scalable for the future while still maintaining a single point of configuration for the RES Workspace Manager environment?

A. Deploy Relay Servers and configure the Agents to connect to the database indirectly (through those Relay Servers)

B. Split the Datastore and have logging and tracking saved to a secondary database

C. Create a new database and let half of the total number of Agents connect to the new database

D. Migrate the database to a database server hosted on two or more clustered machines

Correct Answer: A

QUESTION 9

What components are needed for Desktop Transformation?

1.

 Desktop Sampler

2.

 Workspace Model

3.

 Workspace Preferences

4.

 Workspace Designer

A. 1 and 2 only

B. 2 and 3 only

C. 1, 2 and 4 only

D. 1, 2, 3, and 4

Correct Answer: C

QUESTION 10

What is the effect of changing the `Run Workspace Composer\\' setting from manual to automatic for an Agent in Administration > Agents?

A. That cannot be done, as the Administration node is read-only.

B. Users on that machine will get the RES Workspace Manager Shell instead of the Windows Shell.

C. The RES Workspace Composer will be installed automatically on that Agent.

D. The RES Workspace Composer will be started automatically for every user that logs on to that machine.

Correct Answer: D
