- D. establish a restricted build

Answer: D

QUESTION NO: 7 DRAG DROP

Place the steps to install a fibre channel card in the correct order.

Order the correct steps to install a fibre channel card.

Steps	Order
install driver	place step 1 here
boot system	place step 2 here
run ioscan	place step 3 here
install hardware	place step 4 here
shutdown	place step 5 here

Answer:

Order the correct steps to install a fibre channel card.

Steps	Order
install driver	install driver
boot system	install hardware
run ioscan	shutdown
install hardware	run ioscan
shutdown	place step 5 here

QUESTION NO: 8

If /tmp is 100% full, which commands are used to determine its volume location and if free space

is available on that disk?

- A. bdf, vgdisplay
- B. lvdisplay, diskinfo
- C. bdf, lvdisplay, pvdisplay
- D. vgdisplay, lvdisplay, diskinfo

Answer: C

QUESTION NO: 9 DRAG DROP

Order the steps required to perform a complete integrity check of a journaled file system.

Order the steps required to perform a complete integrity check of a journaled file system /data

Steps	Steps in order
<code>mount /data</code>	place step 1 here
<code>fsck -F jfs -o full,nolog /data</code>	place step 2 here
<code>fsck -F /data</code>	place step 3 here
Check the lost+found directory for orphans	place step 4 here
Close all open files and directories	place step 5 here
<code>umount /data</code>	
<code>shutdown -r now</code>	

Answer:

Order the steps required to perform a complete integrity check of a journaled file system /data

Steps

`mount /data`

`fsck -F jfs -o full,nolog /data`

`fsck -F /data`

Check the lost+found directory for orphans

Close all open files and directories

`umount /data`

`shutdown -r now`

Steps in order

`fsck -F /data`

Close all open files and directories

`shutdown -r now`

`mount /data`

Check the lost+found directory for orphans

QUESTION NO: 10

During a run-state change from run level 1 to run level 2 , which script would be run last?

- A. /sbin/rc2.d/K900nfs.server
- B. /sbin/rc2.d/S500inetd
- C. /sbin/rc2.d/S430nfs.client
- D. /sbin/rc2.d/K200tps.rc
- E. /sbin/rc2.d/S620xfs

Answer: E

QUESTION NO: 11

In which directory does HP-UX supply default templates for the user startup files?

- A. /usr/home
- B. /etc/skel
- C. /home/template
- D. /etc/tmp

Answer: B

QUESTION NO: 12

- A. It is determined by its hardware address.
- B. It points to the associated kernel driver.
- C. It is used to allocate buffer space.
- D. It determines the device's interrupt priority.
- E. It sets the kernel response timeout in tics.

Answer: B

QUESTION NO: 13

What describes the difference between block and character I/O?

- A. Block I/O is used to send data to disk and character I/O is not.
- B. Character I/O is used to send data to disk and block I/O is not.
- C. Block I/O goes through the buffer cache and character I/O does not.
- D. Character I/O goes through the buffer cache and block I/O does not.
- E. Block I/O is for large data transfers only and character I/O is for small data transferd only.

Answer: C

QUESTION NO: 14

You attempt to unmount a file system, /mydata, and get an error stating "device busy". How do you determine the cause?

- A. showmount -a
- B. fuser -uc /mydata
- C. showmount /mydata
- D. mount -v /mydata
- E. cat /etc/mnttab

Answer: B

QUESTION NO: 15

Which file does an HP-UX administrator edit to turn the bootp daemon on at boot?

- A. /etc/bootp
- B. /etc/inetd.conf
- C. /etc/rc.config.d/netconf
- D. /etc/rc.config.d/netdaemon

Answer: B

QUESTION NO: 16

What could possibly solve a paging problem?

- A. add more NICs
- B. add more CPUs
- C. add more memory
- D. add more internal disks
- E. increase swap space

Answer: C

QUESTION NO: 17

How do you change a volume group name without unloading the data?

- A. It is not possible.
- B. vgchange
- C. vgexport, mkdir, mknod, vgimport
- D. vgremove, mkdir, mknod, vgcreate

Answer: C

QUESTION NO: 18

What does the pvcreate command create?

- A. a hard partition
- B. a physical volume device file
- C. the lvm disk resident structures
- D. the physical links

Answer: C

QUESTION NO: 19

What do physical volume links (pv links) provide?

- A. access to a spare disk
- B. automatic load balancing
- C. an alternate path to a disk

D. improved RAID performance

Answer: C

QUESTION NO: 20

Which command shows all physical volumes in a volume group?

- A. vgdisplay
- B. pvdisplay
- C. lvdisplay
- D. lvmdisplay

Answer: A

QUESTION NO: 21

A journaled file system intent log is used to _____.

- A. store user data prior to a physical write
- B. log meta data changes
- C. improve buffer cache performance
- D. provide an audit trail
- E. track mirror transactions

Answer: B

QUESTION NO: 22

What are the main structures inside a journal file system? Select FOUR.

- A. mcells
- B. intent log
- C. fragment
- D. inode table
- E. superblock
- F. cylinder group
- G. allocation units

Answer: B,D,E,G

QUESTION NO: 23

Which directory contains the HP-UX kernel?
