QUESTION 1

Which of the following categories of system specification describes the technical requirements that cover a service, which is performed on a component of the system

- A. Product specification
- B. Process specification
- C. Material specification
- D. Development specification

Correct Answer: B

QUESTION 2

You work as a security manager for BlueWell Inc. You are going through the NIST SP 800-37 CandA methodology, which is based on four well defined phases. In which of the following phases of NIST SP 800-37 CandA methodology does the security categorization occur

- A. Continuous Monitoring
- B. Initiation
- C. Security Certification
- D. Security Accreditation

Correct Answer: B

QUESTION 3

Which of the following categories of system specification describes the technical, performance, operational, maintenance, and support characteristics for the entire system

- A. Process specification
- B. Product specification
- C. Development specification
- D. System specification

Correct Answer: D

QUESTION 4

Which of the CNSS policies describes the national policy on certification and accreditation of national security

telecommunications and information systems

- A. NSTISSP No. 7
- B. NSTISSP No. 11
- C. NSTISSP No. 6
- D. NSTISSP No. 101

Correct Answer: C

QUESTION 5

Which of the following individuals is responsible for monitoring the information system environment for factors that can negatively impact the security of the system and its accreditation

- A. Chief Information Officer
- B. Chief Information Security Officer
- C. Chief Risk Officer
- D. Information System Owner

Correct Answer: D

QUESTION 6

Which of the following phases of the ISSE model is used to determine why the system needs to be built and what information needs to be protected

- A. Develop detailed security design
- B. Define system security requirements
- C. Discover information protection needs
- D. Define system security architecture

Correct Answer: C

QUESTION 7

Fill in the blanks with an appropriate phrase. A _____ is an approved build of the product, and can be a single component or a combination of components.

Correct Answer: development baseline

QUESTION 8

Which of the following types of cryptography defined by FIPS 185 describes a cryptographic algorithm or a tool accepted by the National Security Agency for protecting classified information

- A. Type III cryptography
- B. Type III (E) cryptography
- C. Type II cryptography
- D. Type I cryptography

Correct Answer: D

QUESTION 9

FITSAF stands for Federal Information Technology Security Assessment Framework. It is a methodology for assessing the security of information systems. Which of the following FITSAF levels shows that the procedures and controls are tested and reviewed

- A. Level 4
- B. Level 5
- C. Level 1
- D. Level 2
- E. Level 3

Correct Answer: A

QUESTION 10

Your project has several risks that may cause serious financial impact should they happen. You have studied the risk events and made some potential risk responses for the risk events but management wants you to do more. They'd like for you to create some type of a chart that identified the risk probability and impact with a financial amount for each risk event. What is the likely outcome of creating this type of chart

- A. Risk response plan
- B. Quantitative analysis
- C. Risk response
- D. Contingency reserve

Correct Answer: D

QUESTION 11

NIST SP 800-53A defines three types of interview depending on the level of assessment conducted. Which of the following NIST SP 800-53A interviews consists of informal and ad hoc interviews

- A. Abbreviated
- B. Significant
- C. Substantial
- D. Comprehensive

Correct Answer: A

QUESTION 12
