QUESTION 1

View the following exhibit, which shows the Download Import Report:

```
Start to import config from device(Remote-FortiGate)vdom(root)to adom(MyADOM),
package(Remote-FortiGate)
"firewall address",SUCCESS,"(name=REMOTE_SUBNET,oid=580,new object)"
"firewall policy",SUCCESS,"(name=1,oid=990, new object)"
"firewall policy",FAIL,"(name=ID:2(#2),oid=991,reason=interface(interface binding
contradiction.detail:any<-port6)binding fail)"
```

Why it is failing to import firewall policy ID 2?

- A. The address object used in policy ID 2 already exist in ADOM database with any as interface association and conflicts with address object interface association locally on the FortiGate.
- B. Policy ID 2 is configured from interface any to port6. FortiManager rejects to import this policy because any interface does not exist on FortiManager.
- C. Policy ID 2 for this managed FortiGate already exists on FortiManager in policy package named Remote-FortiGate.
- D. Policy ID 2 does not have ADOM Interface mapping configured on FortiManager.

Correct Answer: B

QUESTION 2

Which of the following statements are true regarding VPN Manager? (Choose three.)

- A. VPN Manager must be enabled on a per ADOM basis.
- B. VPN Manager automatically adds newly-registered devices to a VPN community.
- C. VPN Manager can install common IPsec VPN settings on multiple FortiGate devices at the same time.
- D. Common IPsec settings need to be configured only once in a VPN Community for all managed gateways.
- E. VPN Manager automatically creates all the necessary firewall policies for traffic to be tunneled by IPsec.

Correct Answer: ACD

QUESTION 3

View the following exhibit:

An administrator logs in to the FortiManager GUI and sees these panes. Which of the following can be the reason the FortiAnalyzer feature panes don't appear? (Choose two.)

- A. The administrator IP address is not a part of the trusted hosts configured on FortiManager's interfaces.
- B. FortiAnalyzer features are not enabled on FortiManager.
- C. The administrator logged in using unsecure protocol HTTP, so the view is restricted.
- D. The administrator profile does not have full access privileges like the Super_User profile

Correct Answer: AB

QUESTION 4

An administrator is unable to log in to FortiManager. Which one of the following troubleshooting step should you take to resolve the issue?

- A. Make sure FortiManager Access is enabled in the administrator profile.
- B. Make sure ADOMs are enabled and the administrator has access to the Global ADOM.
- C. Make sure Offline Mode is disabled.
- D. Make sure the administrator IP address is part of the trusted hosts.

Correct Answer: D

QUESTION 5

Which of the following conditions trigger FortiManager to create a new revision history? (Choose two.)

- A. When FortiManager installs device-level changes to a managed device.
- B. When configuration revision is reverted to previous revision in the revision history.
- C. When changes to device-level database is made on FortiManager.
- D. When FortiManager is auto-updated with configuration changes made directly on a managed device.

Correct Answer: AD

QUESTION 6

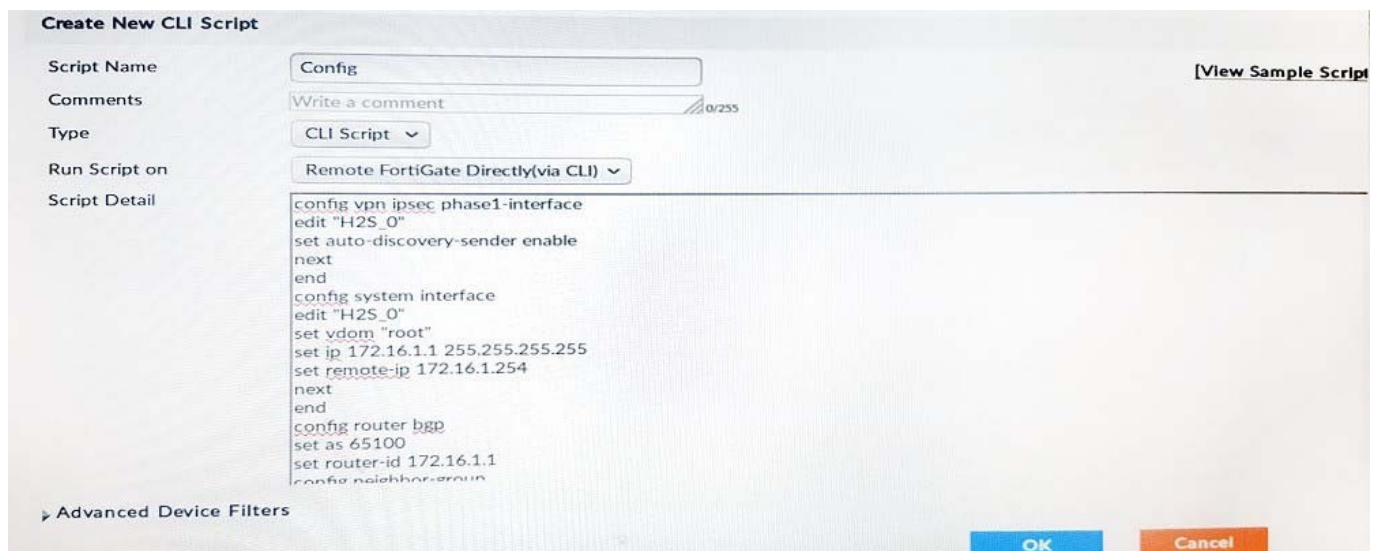

When installation is performed from the FortiManager, what is the recovery logic used between FortiManager and FortiGate for an FGFM tunnel?

- A. After 15 minutes, FortiGate will unset all CLI commands that were part of the installation that caused the tunnel to go down.
- B. FortiGate will reject the CLI commands that will cause the tunnel to go down.
- C. FortiManager will revert and install a previous configuration revision on the managed FortiGate.
- D. FortiManager will not push the CLI commands as a part of the installation that will cause the tunnel to go down.

Correct Answer: A

QUESTION 7

View the following exhibit:

Which of the following statements are true if the script is executed using Remote FortiGate Directly(via CLI) option? (Choose two)

- A. FortiManager provides a preview of CLI commands before executing this script on a managed FortiGate.

- B. FortiManager will create a new revision history.
- C. FortiManager will auto-update FortiManager's device-level database.
- D. You must install these changes using Install Wizard.

Correct Answer: AC

QUESTION 8

How are the points calculated when using FortiMeter to deploy FortiOS-VM? (Choose two.)

- A. Based on the number of sessions on the mgmt interface of FortiOS-VM.
- B. Based on the FortiGuard service option enabled for FortiOS-VM.
- C. Based on the traffic usage on port1 and port2 on FortiOS-VM.
- D. Based on the amount of traffic (per GB) passing through the FortiOS-VM.

Correct Answer: BD

QUESTION 9

View the following exhibit:

Import Device - Local-FortiGate [root]

When importing configuration from this device, all enabled interfaces require a mapping to an ADOM Level interface. Note, the same ADOM Level interface can map to different interfaces on the each device.

Device Interface	ADOM Interface
port1	WAN
port3	LAN

Add mappings for all unused device interfaces

Next > Cancel

An administrator used the value shown in the exhibit when importing a Local-FortiGate into FortiManager. What name will be used to display the firewall policy for port1?

- A. port1 on FortiGate and WAN on FortiManager
- B. port1 on both FortiGate and FortiManager
- C. WAN zone on FortiGate and WAN zone on FortiManager

D. WAN zone on FortiGate and WAN interface on FortiManager

Correct Answer: A

QUESTION 10

Refer to the following exhibit:

```
config system global
set workspace-mode normal
end
```

Which of the following statements are true based on this configuration? (Choose two.)

- A. Unlocking an ADOM will submit configuration changes automatically to the approval administrator.
- B. Unlocking an ADOM will install configuration changes automatically on managed devices.
- C. Ungraceful closed sessions will keep the ADOM in a locked state until the administrator session times out.
- D. The same administrator can lock more than one ADOM at the same time.

Correct Answer: CD
