### QUESTION 1

Which of the following is the access point (AP) configuration to stop AP sending Beacon frames and used to enhance security of a Wireless LAN (WLAN)?

- A. Mobility anchor
- B. Mobility domain
- C. Rogue AP
- D. SSID cloaking

Correct Answer: D

---

### QUESTION 2

You work as a Network Administrator for Web Inc. The company deploys a Wireless LAN network but there is some problem due to the interference of signals. Which of the following tools should you use to determine signal strength, noise level, and potential sources of interference? Each correct answer represents a complete solution. Choose three.

- A. Link Budget
- B. EIRP
- C. SNR
- D. RSSI

Correct Answer: ACD

---

### QUESTION 3

Which of the following statements about ExpressCard are true? Each correct answer represents a complete solution. Choose three.

- A. The performance of ExpressCard varies with module size.
- B. It comes in two sizes. one is 20 mm wide (ExpressCard/20) and the other is 40 mm wide (ExpressCard/40).
- C. ExpressCard modules use either Universal Serial Bus (USB) 2.0 or the PCI Express (PCIe) bus.
- D. The performance of ExpressCard does not vary with module size.
- E. It comes in two sizes. one is 34 mm wide (ExpressCard/34) and the other is 54 mm wide (ExpressCard/54).

Correct Answer: CDE

---

### QUESTION 4

What is the minimum number of antennas required by an IEEE 802.11g access point to move data?

- A. Three
- B. Two
- C. One
- D. Four

Correct Answer: C

---

#### QUESTION 5

Which of the following organizations was formed to define and develop common standards for the World Wide Web?

- A. DARPA
- B. W3C
- C. Intel
- D. IETF E. IEEE

Correct Answer: B

---

#### QUESTION 6

Which of the following IEEE standards provides wireless network connectivity?

- A. 802.11h
- B. 802.11a
- C. 802.11d
- D. 802.11c

Correct Answer: B

---

#### QUESTION 7

Which of the following wireless techniques provides the highest data transfer speed?

- A. Infrared
- B. 802.11b
- C. Bluetooth

D. 802.11

Correct Answer: B

---

#### QUESTION 8

Which of the following terms describes the accounting of all gains and losses between the sending and receiving end, such as attenuations, antenna gains, and other losses?

- A. Network budget
- B. Transmission budget
- C. Link budget
- D. Gain and loss budget

Correct Answer: C

---

#### QUESTION 9

You need to add a separate wireless network card to your customer's laptop. You need to select the appropriate expansion card type. Which of the following is NOT an expansion slot you will find in the laptop?

- A. PCMCIA TYPE III
- B. PCI
- C. PCMCIA TYPE I
- D. Express

Correct Answer: B

---

#### QUESTION 10

Fill in the blank with the correct value. The 802.11g wireless standard applies to wireless LANs and provides transmission speeds of up to Mbps.

Correct Answer: 54

---

#### QUESTION 11

Which of the following serial bus specifications is also known as Firewire?

- A. RS-232

B. IEEE 1284

C. IEEE 1394

D. DIN

Correct Answer: C

---

#### QUESTION 12

Which of the following wireless standards operates at 54 Mbps in the 5Ghz band?

A. 802.11a

B. 802.11i

C. 802.11b

D. Bluetooth

Correct Answer: A

---

#### QUESTION 13

What percentage of the total area of the Fresnel zone must be clear of obstacles in order to have RF line of sight?

A. 40

B. 60

C. 50

D. 72

Correct Answer: B

---

#### QUESTION 14

You work as a Help Desk Technician for uCertify Inc. Your work is to provide technical assistance to users on the phone. Mark, a user, reports that he is facing some difficulties in staying connected to his office wireless network with his laptop. His computer reports that the wireless signal is very low. Which of the following will you tell Mark to do to improve the weak signal strength and stability? Each correct answer represents a complete solution. Choose two.

A. Change the location to get closer to the wireless access point (WAP).

B. Adjust the antenna on the wireless PC card.

C. Change the SSID of the laptop.

D. Reboot the wireless router.

Correct Answer: AB

---

**QUESTION 15**

Which of the following IEEE standards use Direct Sequence Spread Spectrum (DSSS)?

- A. 802.11g
- B. 802.11b
- C. 802.11
- D. 802.11a

Correct Answer: B
